Dear SUWEN LI:

Thank you for your interest in attending the **Light, Energy and the Environment Congress**. The Congress will feature the following Topical Meetings: Fourier Transform Spectroscopy (FTS), Hyperspectral Imaging and Sounding of the Environment (HISE), Optics and Photonics for Energy & the Environment (E2), Optics in Solar Energy (SOLAR), and Solid-state Lighting (SSL). It will be held at the Resort World Sentosa, from 5-9 November, 2018 on Sentosa Island, Singapore. The meeting is open to all OSA members and those with related optics.

This letter serves as a formal invitation for you to participate in the meeting. Your participation in the meeting may include presenting a paper, attending sessions in your area of interest, and an opportunity to communicate with others working in the field of optical science.

This is an invitation to participate in the meeting, but not a personal sponsorship of your stay in Singapore. You will need to secure your own funding for travel, registration, and housing expenses for the meeting.

Sincerely,

A handwritten signature in black ink, which appears to read "Gregory J. Quarles".

**Gregory Quarles, PhD**
